End-of-Life and End-of-Support Notice

Tuesday, January 04, 2011

To R:BASE Community,

On October 14, 2011, R:BASE Technologies, Inc. will end all support for R:BASE 7.6 and R:BASE Turbo V-8.

<http://www.rbase.com/news>

Released on September 03, 2007, R:BASE 7.6 has undergone hundreds of bug fixes and product enhancements over the years. During the life of R:BASE 7.6, the product received "11" major releases, with several interim patches. Released on November 03, 2006, R:BASE Turbo V-8 has undergone just as many bug fixes and product enhancements. During its life cycle, "25" major releases, with several interim patches, have been provided.

From now until October, no persistent product enhancement or minor bug report development will be made in 7.6 or Turbo V-8, and only elevated bug-related issues will be considered.

All users of R:BASE 7.6/Turbo V-8, and below, are encouraged to migrate to R:BASE eXtreme, in order to take advantage of the many featured enhancements within the R:BASE product.

Users with active R:BASE 7.6 and R:BASE Turbo V-8 Software Assurance Plans will continue to receive software support for license transfers and periodic updates, however, we recommend the upgrade to the current R:BASE product line when the R:SAP eventually expires. In rare cases where an R:SAP must be renewed after the End-of-Support date, users can do so.

For any inquiries about the latest version of R:BASE eXtreme, please contact the R:BASE Technologies, Inc. Sales Team by phone 1+724.733.0053, or e-mail: sales@rbase.com

We remain committed to helping our customers achieve success with their R:BASE solutions. If you have any questions regarding this notice, please contact us.

Very best regards,

Customer Service Team
